

Webberville Consolidated Drain Project Construction Paving Notice July 31, 2020

Dear Webberville Village and Leroy Township Resident:

In continuation and eventual completion of the storm sewer work for our project, our contractor, Mead Bros., will be paving Franklin, West Chestnut, Maple, East Walnut, East Oak, South Howard and Monroe streets starting on Tuesday, August 4th, good weather and other construction logistics permitting. **Please see location map on the reverse side.** This first layer of pavement will be followed by the installation of the top coat or wearing course the following week, again, good weather and other conditions permitting. Current paving preparatory work in these areas includes sub grade gravel placement, grading and rolling and structure raising. Only emergency vehicles and local traffic will be able to pass through the areas as necessary. You will also be advised by signage and flag persons as to safe travel on recently paved areas when they are safe enough and cool enough to travel on.

If you have any concerns or questions regarding this work or have special travel needs, please contact Dave Solberg, Ingham County Project Coordinator (517-719-4898) or Jeff Alpers, Resident Project Representative, Lockwood, Andrews & Newnam (810-931-5582). You may also visit our project website at www.webbervilleconsolidatedrain.com for construction area mapping, construction notices, updates and contact information. Thank you for your time and attention to this matter and it is a pleasure and an honor to serve you and the other citizens of Ingham County.
