

Webberville Consolidated Drain Project Construction Paving Notice November 9, 2020

Dear Webberville Village and Leroy Township Resident:

In continuation and eventual completion of the storm sewer work for our project, our contractor, Mead Bros., will be paving the following streets, West Chestnut, South Summit, South Clark, Oak Street, West Walnut, and South Main Street starting on Thursday, November 12th, good weather and other construction logistics permitting. **Please see location map on the reverse side.** Both layers of pavement, base and top wearing courses, are expected to be installed at these locations on Thursday. Current paving preparatory work in these gravel areas includes sub grade gravel placement, grading and rolling and structure raising. Only emergency vehicles and local traffic will be able to pass through the areas as necessary. You will also be advised by signage and flag persons as to safe travel on recently paved areas when they are safe enough and cool enough to travel on.

If you have any concerns or questions regarding this work or have special travel needs, please contact Dave Solberg, Ingham County Project Coordinator (517-719-4898) or Tyler Mohre, Resident Project Representative, Lockwood, Andrews & Newnam (517-614-8340). You may also visit our project website at www.webbervilleconsolidateddrain.com for construction area mapping, construction notices, updates and contact information. Thank you for your time and attention to this matter and it is a pleasure and an honor to serve you and the other citizens of Ingham County.
